

Invitation to participate at Life Sciences Baltics 2014

Please be invited to the second Life Sciences Baltics 2014 forum (www.lsb2014.com), which will be held in Vilnius, Lithuania, on 10-12th September, 2014

Life Sciences Baltics is an international forum for world class biotechnology, pharmaceutical and medical device experts from all around the world. The first Life Sciences Baltics 2012 forum last year introduced a significant potential of life sciences industries in the Baltic States – Estonia, Latvia, and Lithuania – to more than 800 participants from 30 different countries.

The goal of the second conference is to increase the awareness of the region's talent and potential by networking and exchange of best practices. The Life Sciences Baltics 2014 forum will be an excellent opportunity to meet major business and sciences stakeholders in the field from around the world, and to learn about industry trends.

The international conference will be complimented by an international exhibition, a partnership event (B2B meetings), start-up programmes, and a students' conference.

Please find enclosed info about LSB2014.

Yours sincerely,

Mantas Nocius
Managing Director
