No. 02-1483/1

Podgorica, 29 November 2012

Mr. Nicolae TIMOFTI,  
President of the Republic of Moldova  
Chisinau, MD-2073  
Stefan cel Mare Ave 162, Republic of Moldova

Dear President Timofti,

We have learned that the Parliament of the Republic of Moldova has voted by the Budget Law for 2013 year significant amount less for financing science innovation sector. Mr. President, it is not needed to explain to you significance of science innovation sector in the XXI century, in the age when we all want to live in science based society.

Science based society relies dominantly on the science innovation sector. For the countries like Republic of Moldova which do not have reach energy sources, or reach natural resources science innovation sector plays the most significant role in socio-economic development of country and increasing standard of living of its citizens.

Mr. President, we all want to believe that this cut of finances for innovation sector has happened by miscount and that you will do your best to help correct it such to help Moldova to keep catching up with science based societies.

Sincerely yours,
